ul. Łyskowskiego 16
71-641 Szczecin

In reply to your letter of 22 January 2020 (date of receipt by the local Office: 22 January 2020), concerning clarification of the content of the decision of 06 November 2019, Reference No. WOPN-OG.6400.97.2019.MR, WOPN-OG.6401.06.11.2019.MR, WOPN-OG.6401.05.11.2019.MR, WOPNOG.6401.03.24.2019.MR, WOPN-OG.6401.02.220.2019.MR, WOPN-OG.6401.01.67.2019.MR, WOPN-OG.6401.04.22.2019.MR, i.e. the condition contained in the paragraph 10 of the abovementioned Decision, which reads as follows: "the anthills will be relocated manually in such a way as to ensure that the queen is relocated with the eggs laid", I explain as follows: the queen, with the eggs laid, and the most active ants must be protected manually in order to ensure the continuity of the anthill. However, other activities, including transport to the previously prepared destination, may be carried out using mechanical equipment.
