The announcement invited natural persons, authorities, and interested institutions to review the Draft LA&amp;RAP for Contract 3D.2/1.</p> <p>Every interested party was able to acknowledge the Draft LA&amp;RAP (hard copy) <b>from January 15, 2020 to February 5, 2020</b> (inclusive) available in</p>

<p>would be able to acknowledge the draft LA&amp;RAP and submit its conclusions and remarks to the draft LA&amp;RAP, which may be filed in writing, by e-mail and by phone, orally to the protocol or by mail to the following address:</p> <p>STATE WATER HOLDING POLISH WATERS REGIONAL WATER MANAGEMENT AUTHORITY IN CRACOW 22. Marsz. Józefa Piłsudskiego Street, 31-109 Cracow</p> <p>or by e-mail to: <a href="mailto:jrp.krakow@wody.gov.pl">jrp.krakow@wody.gov.pl</a>. After completing the publication process a public debate (public meeting) on the draft LA&amp;RAP shall be organized. Venue and time of the public debate shall be provided in the aforementioned information for the society. The public shall be able to file oral and written comments on the draft LA&amp;RAP and to the debate memo.</p> <p>All previously informed (in writing, by mail, by phone, orally to the protocol) questions and remarks, as well as the answers, shall be read during the meeting. Additional questions and remarks of participants shall be collected during the meeting. If an answer requires time, contact data of the person shall be noted and the answer shall be provided within 7 days by mail or by post. A meeting memo shall be developed, which would be submitted to the World Bank (Appendix no. 14 to this LA&amp;RAP). Remarks of the public, which would require inclusion, shall be implemented to the LA&amp;RAP, and the final version of the document shall be developed. That form of the LA&amp;RAP shall also be submitted to the WB to obtain the acceptance clause – so-called “no objection”. The final LA&amp;RAP – after obtaining the WB’s “no objection” clause shall also be available for the interested parties, i.e. published at a website until completion of the Contract. Any updates of the LA&amp;RAP shall also be available for the interested parties at websites of the PIU and the OVFM</p>	<p>offices of the following:</p> <ol style="list-style-type: none"> <li>1. State Water Holding Polish Waters, Regional Water management Authority in Cracow (PGW WP RZGW in Cracow), 22. Marsz. J. --	------	--

		<p>Publication of the Draft LA&amp;RAP – officially commenced on <b>January 15, 2020</b> – ended after 21 days, on <b>February 5, 2020</b>. In the period of publishing the Draft Land Acquisition and Resettlement Action Plan the PGW WP RZGW in Cracow, the Water Inspectorate in Cracow, and the Consultant’s Project Office did not receive any enquiries or motions – neither by e-mail nor by phone, and they were not handed over personally. Some interest in the document available electronically was however noted. Downloads of files from the websites informed in the announcement were observed.</p> <p>The open meeting for the public – referring to public consultations on the Draft Land Acquisition and Resettlement Action Plan for Contract 3D.2/1 Construction of the right embankment of the Biala River in the City of Tarnów, implemented under the Odra-Vistula Flood Management Project, was held in a venue located close to domiciles of project affected persons, in the Mirror Hall of the City Office of Tarnów, 10. Wałowa Street, 33-100 Tarnów, on February 6, 2020, at 3:00 pm.</p> <p>20 people attended the meeting, and the attendees were representatives of the City Office of Tarnów, PAF Branch Management Board, FAG Semafor Management Board. Representatives of entities directly engaged in implementation of the OVFMP also participated in the meeting, i.e.: Project Implementation Office of PGW WP RZGW in Cracow, Project Coordination Unit, and the Consultant Engineer’s Team (including the: Project Manager, Designer, and the Properties Management Team).</p> <p>The meeting was opened by the Manager of the Project Implementation Office of PGW WP RZGW in Cracow, who welcomed the attendees and gave the floor to the Project Manager from the Consultant Engineer’s Team. The Manager welcomed the attendees and briefly presented the purpose of the meeting and thanked the local authorities of Tarnów, representatives of the PAF Branch Management Board and of the FAG</p>
--	--	--

		<p>Semafor for their engagement and assistance in actions associated with obtainment of properties. She subsequently gave the floor to the Consultant Engineer's Senior Supporting Expert for properties and technical assistance to the Client. The Consultant's Representative shown a multimedia presentation:</p> <ol style="list-style-type: none"> <li>1. Purpose and financing for the OVFMP were briefly discussed.</li> <li>2. It was explained why the Draft LA&amp;RAP was developed and how did its publication procedure look like.</li> <li>3. Information on Contract 3D.2/1 (scope of works, area protected against flooding due to implementation of the Contract in question) were provided.</li> <li>4. The greatest attention was paid to: legal regulations on payment of compensation in the area of newly formed embanked area and the area underneath the embankment, procedure of their establishment, provision of appeals, and claim and complaint provision mechanism.</li> <li>5. The progress of compensation establishment and payment process for planned liquidation of allotment gardens located within the embanked area was discussed.</li> <li>6. An exceptional attention was paid to the issue of changing the Investor, i.e. to the liquidation of the Małopolski Board of Amelioration and Water Structures in Cracow on 12/31/2017, and to forming of a new entity – State Water Holding Polish Waters – which took over rights and liabilities of the liquidated unit. Coincidence between those events and the date of issuing the IPIP decision for the Contract in question and the day it became final was discussed. The speaker apologized for not taking actions back then to establish the compensation, and informed that on 02/05/2020 an application on establishing the</li> </ol>
--	--	---

		<p>amount of compensation for allotment gardens located underneath the embankment, which shall be liquidated, was submitted to the Małopolski Governor. Further steps associated with the compensation payment were also discussed.</p> <ol style="list-style-type: none"> <li>7. The attendees were informed about the possibility of receiving the undisputable part of the compensation despite a potential appeal against the decision of the Governor establishing the compensation amount.</li> <li>8. The attendees were informed about the purpose and contents of the developed Draft LA&amp;RAP, Operational Policy OP 4.12 was discussed. At presenting the issues of the Draft LA&amp;RAP Mrs. Marta Rak drew special attention to measures mitigating social impact and to liabilities of the Contractor related to the rules of obtaining properties for temporary acquisition, which shall be its obligation and refer to the scope of acquisition greater than the one indicated under the IPIP decision. The final area of temporary acquisition shall be determined by the Contractor, which would be selected by the Investor in a public bidding proceeding. Its representatives shall contact the owners/holders of land in vicinity of the embankments to establish the acquisition conditions. The process shall be implemented on a voluntary basis and based upon the rules determined under the agreement concluded between the property owner and the Contractor. It shall be monitored by the Investor and the Consultant acting in its name (a framework agreement template for temporary acquisition, which would need to be applied by the Contractor for Works Contract 3D.2/1, is given in the Draft LA&amp;RAP).</li> </ol>
--	--	---

		<p>After completing the presentation the floor was given to the attendees.</p> <p>During the public discussion at the meeting (open for anyone interested in implementation of the Project) every attendee was able to provide oral and written comments/remarks on the Draft LA&amp;RAP to the report. Additional questions were asked and remarks were raised during the meeting, answers to which required additional time and verification of information. The questions asked during the meeting referred to issues described in details in the LA&amp;RAP, and the Consultant attempted to answer them and clarify the doubts during the meeting, and they do not require updating the Draft LA&amp;RAP. Some questions referred to the scope and the area beyond ones described in that document; thus – in accordance with a will of one PAP – a Question Form was submitted by e-mail, so the person would be able to receive related answers. Those questions were answered in writing and by e-mail.</p> <p>Some remarks submitted by the PAP have been included in the final LA&amp;RAP. Additionally, the LA&amp;RAP underwent autocorrection in the range of data given in table on page 19.</p> <p>A meeting report was developed and it was submitted to the World Bank. The report forms Appendix no. 11 to the LA&amp;RAP.</p> <p>After obtaining WB's "no objection" clause the final LA&amp;RAP shall be made available to the interested parties, i.e. published at a website and left there until the completion of Contract implementation. Any updates of the LA&amp;RAP shall also be made available to the interested parties on websites of the PIU and the PCU.</p>
