

The Environmental Management Plan for Task 1B.6/1 Nowa Sól stage I and II  
**Appendix 6. Map presenting the location of main elements of the Task**

**Legend**

-  Regulation of the river
-  Relocation of the river
-  Demolition of the embankment
-  Expansion of the embankment
-  Construction of a new embankment
-  Lift station duct

- Orange background of descriptions means the elements of **Stage I**  
 - Yellow background of descriptions means the elements of **Stage II**

Construction of new embankment crossing the Czarna Struga Valley

Raising the existing embankment on the left bank of the Czarna Struga River

Construction of pumping station with pumping station ducts

Regulation of the estuary section of the Czarna Struga River with relocation of a section of riverbed

Raising the existing embankment on the right bank of the Czarna Struga River

Demolition of existing embankment on the left bank of the Czarna Struga River in the estuary section

Regulation of the Czarna Struga riverbed downstream of km 3+330

Construction of new embankment on the right bank of the Czarna Struga River

Construction of new embankment on the left bank of the Odra River upstream of the Czarna Struga estuary

Demolition of existing embankment on the left bank of the Odra River upstream of the Czarna Struga estuary

km 3+330 of the Czarna Struga River

Demolition of the outbuilding

Expansion of embankments for the Power Channel

Demolition of traffic structures

Demolition of destroyed barrage and a part of bricked wall

Regulation of the Czarna Struga riverbed upstream of km 3+330

Construction of embankments on both banks of the Czarna Struga River upstream of km 3+330
