RE: decision on environmental conditions dated 03/08/2016, ref. no.: ST-I.4233.2.2015.BM, for the Works Contract comprising extension of the left embankment and of the right embankment of the Biała River in the City of Tarnów

In reference to the note dated 05/19/2017, ref. no.: BTT-319/MN/2017, containing a question about replacement planting, in reference to provisions of a decision of the Regional Director for Environmental Protection in Cracow dated 03/08/2016, ref. no.: ST-I.4233.2.2015.BM, on environmental conditions for the Works Contract comprising extension of the left embankment and of the right embankment of the Biała River in the City of Tarnów, the Site Issues Department in Tarnów of the Regional Directorate for Environmental Protection in Cracow provides the following clarifications.

A condition related to the necessary designing of replacement planting, as given in the aforementioned decision, as well as provisions given in the characteristics of the planned Works Contract allow for including (through precise indications) only the species of trees planned for planting in documentation required for the issuance of an investment project implementation permit – in accordance with potential natural vegetation and in reference to local habitat conditions; as well as the number of trees – not less than 1,000 units.

Provisions of the aforementioned decision allow for determining the location of planting at undertaking the construction works by the Contractor.

The planting should be done as close to the Contract location as possible, within the properties owned by the Municipality of Tarnów and/or by the Commune of Tarnów.

pp. Regional Director
for Environmental Protection in Cracow
Eng. Paweł Koziół MSc
Manager of Site Issues Department in Tarnów
