**RE: Conclusions on and remarks to the draft “Land Acquisition and Resettlement Action Plan” for the Odra-Vistula Flood Management Project, Works Contract 3D.2/2: “Expansion of the left and right embankment of the Biala River in the Tarnow Municipality and the City of Tarnow”.**

As a consequence of public consultations for the aforementioned draft LA&RAP, while being an owner of the properties at **33-100 Tarnów, XXXXXXXX Street, Area XXX, plots no. XXX and no. XXX** (appendix no. 1 – extract from the mortgage register), which are located in a direct neighborhood of the planned investment and a residential building is placed just 5 m from the foot of the flood embankment, I submit the following conclusions on the project:

1. Accepting me as a party of proceeding due to adverse impact of the planned investment on the properties. Despite submission of motions on the earlier stage of the investment, they were not included in the project.
2. Development of drainage at the embankment on the side of my property, and connecting it to the storm drainage developed in 2019 by VEGA.
3. Redevelopment of the existing land utilities, i.e. sewerage and water-supply system. Currently the well and cesspool are located within the boundaries of the property, 3 m from the embankment foot, which is against the construction law. Land utilities were left in that condition at the construction of the embankment. I apply for reaching the condition compliant with the spatial development plan and with the binding law on the investor’s cost.

XXXXXXX

Appendices:

1. Appendix no. 1 – Extract from the mortgage register.
2. Appendix no. 2 – Map with location of the well and of the cesspool.
