ODRA-VISTULA FLOOD MANAGEMENT PROJECT

UNDER SUBCOMPONENT 3D:
PASSIVE AND ACTIVE PROTECTION IN SAN BASIN,
CONTRACT 3D.1 SAN PROGRAMME.
PASSIVE PROTECTION IN SAN BASIN

THE INVESTMENT SHALL CONTAIN THE FOLLOWING, E.G.:

- extension of the embankment including anti-seepage sealing,
- development of a retaining wall,
- development of a mobile flood protection system at crossing between the embankment and provincial road no. 854,
- extension of embankment crossings,
- development of a paved road at the embankment, including passing loops,
- repairs to courses of a road located on the embankment crest, including development of a passing loop and of road barriers,
- development of a drainage along the provincial road and the road on the embankment crest.

**ESTIMATED INVESTMENT VALUE IS:
PLN 25 million**

IMPORTANT CONTRACT IMPLEMENTATION DATES:

- Conclusion of agreement with the Contractor:
12/31/2019
- Handing the construction site over:
01/09/2020
- Planned completion of the construction works:
01/08/2021

OBJECTIVES OF THE INVESTMENT TASK:

Extension of the flood embankment at the River San over a length of 4.45 km at San chainage km 0+000-4+445 results from the necessary enhancement of security for the area of Wrzawy (Commune of Gorzyce). The embankment section shall protect neighboring sites in the area of San mouth to the River Vistula along with the modernized Vistula embankment and the further course of the San embankment.

The main aim of the investment is to improve flood protection for areas located in the San basin within the boundaries of the Commune of Gorzyce. Implementation of the investment is necessary to secure flood protection for the surrounding residential houses, outbuildings, farmland, and technical facilities.

BEGINNING OF EMBANKMENT MODERNIZATION

at km 0+000 junction with the currently modernized Vistula embankment – Task Vistula Stage II

PROTECTED PEOPLE 8 800	PROTECTED AREA 3 000 ha
EMBANKMENT LENGTH 4 445 m	EMBANKMENT CROSSINGS 6 units

END OF EMBANKMENT MODERNIZATION

at km 4+445 junction with the San embankment modernized in 2015 – Task San I
